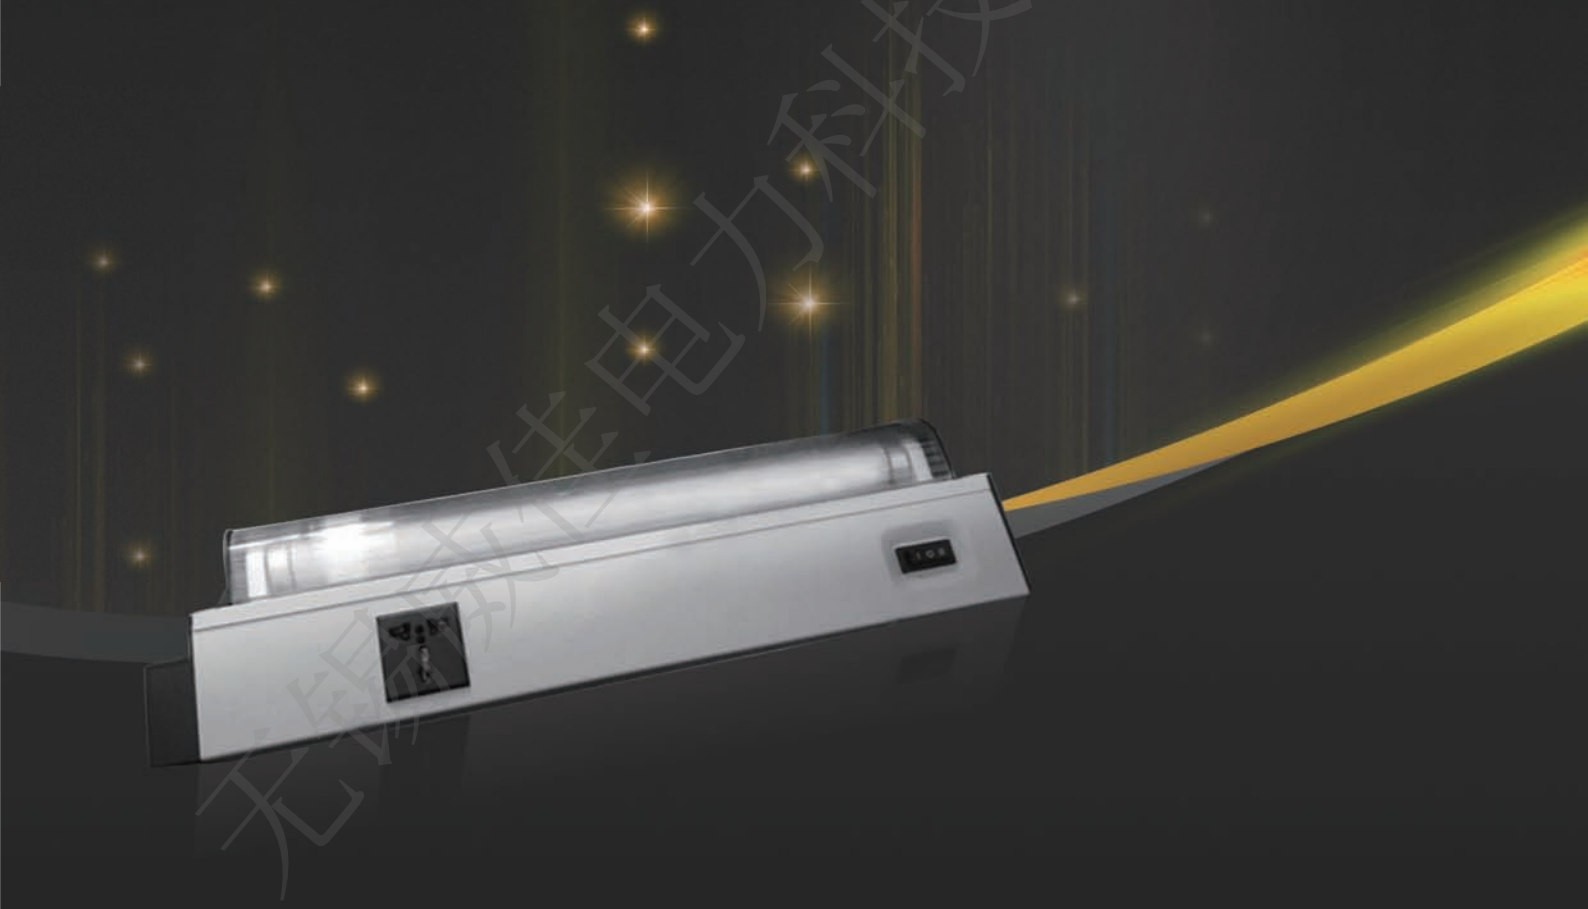
UE-iLamp-LD10

Product Introduction



无锡威佳电力科技有限公司

使用产品前请仔细阅读本使用说明，并请妥善保管

1 产品概述
Product Description

UE-iLamp 系列是我司最新开发的第三代机柜照明灯具。采用 LED 大功率灯管，亮度高，更换方便，安装方便。可连接电源插座及门位开关配套使用，可多个照明灯串联使用。

UE-iLamp series is our newly developed third generation cabinet lighting lamps. Led high-power light tube, high brightness, convenient replacement and installation. It can be connected with power socket and door switch for matching use, and multiple lighting lamps can be used in series.

1.1 产品参数 Product Parameters

型号 Model	UE-iLamp-LD10
功率 Power	10W
额定电压 Rated Voltage	230V
门位开关形式 Door Switch Type	分体式 Split Type
环境温度 Ambient Temperature	-25~50°C
防护等级 Protection Level	IP20
备用插座 Spare Socket	10A
使用寿命 Service Life	3000h
长 * 宽 * 高 Length * Width * Height	430*116*52mm

3 安装步骤

Installation Procedure

- 拆开 LED 照明灯的塑料外壳。
- 卸掉灯管。
- 用附件里的两颗长自攻钉将 LED 照明灯本体固定到机柜的框架型材上，插座及开关朝下。
- 装上 LED 灯管，卡上塑料外壳注意 LED 的灯管安装方向，不要装反，否则灯管可能不亮，但不会损坏。
- 将门位开关安装到灯附近的框架型材上，不能安装太远，防止连接线不够长，使门位开关的撞针可以有效接触门板，起到可靠开合作用。
- 将电源线接到 LED 灯的插座上，核实供电电源的电压，将电源线的另一端接到电源上。

- Remove the plastic cover of the LED lamp.
- Remove the lamp tube.
- Use two long self tapping screws in the accessories to fix the LED lighting body to the frame profile of the cabinet, with the socket and switch facing down.
- Install the LED tube and clip on the plastic shell. Pay attention to the installation direction of the LED tube. Do not install it reversely. Otherwise, the lamp tube may not be bright, but it will not be damaged.
- The door position switch shall be installed on the frame profile near the lamp, which shall not be installed too far to prevent the connecting wire from being long enough, so that the impact pin of the door position switch can effectively contact the door panel and play a reliable opening and closing role.
- Connect the power line to the LED lamp socket, verify the voltage of the power supply, and connect the other end of the power line to the power supply.
